

AI Use Declaration Form

Course: Introduction to Artificial Intelligence

Lab Title: Lab 1 Part B — Uninformed Search Algorithms

Student Name: Manyok Gai C

Student ID: 31452027

GitHub Repository Link: https://github.com/manyok11/Lab1_Part_A-B

Date Submitted: 20/06/2026

1. AI Use Summary

Question	Student Response
Did you use any AI tool for this lab?	yes
Estimated percentage of the work influenced by AI	15 %
Did you attach evidence of AI use where applicable?	yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

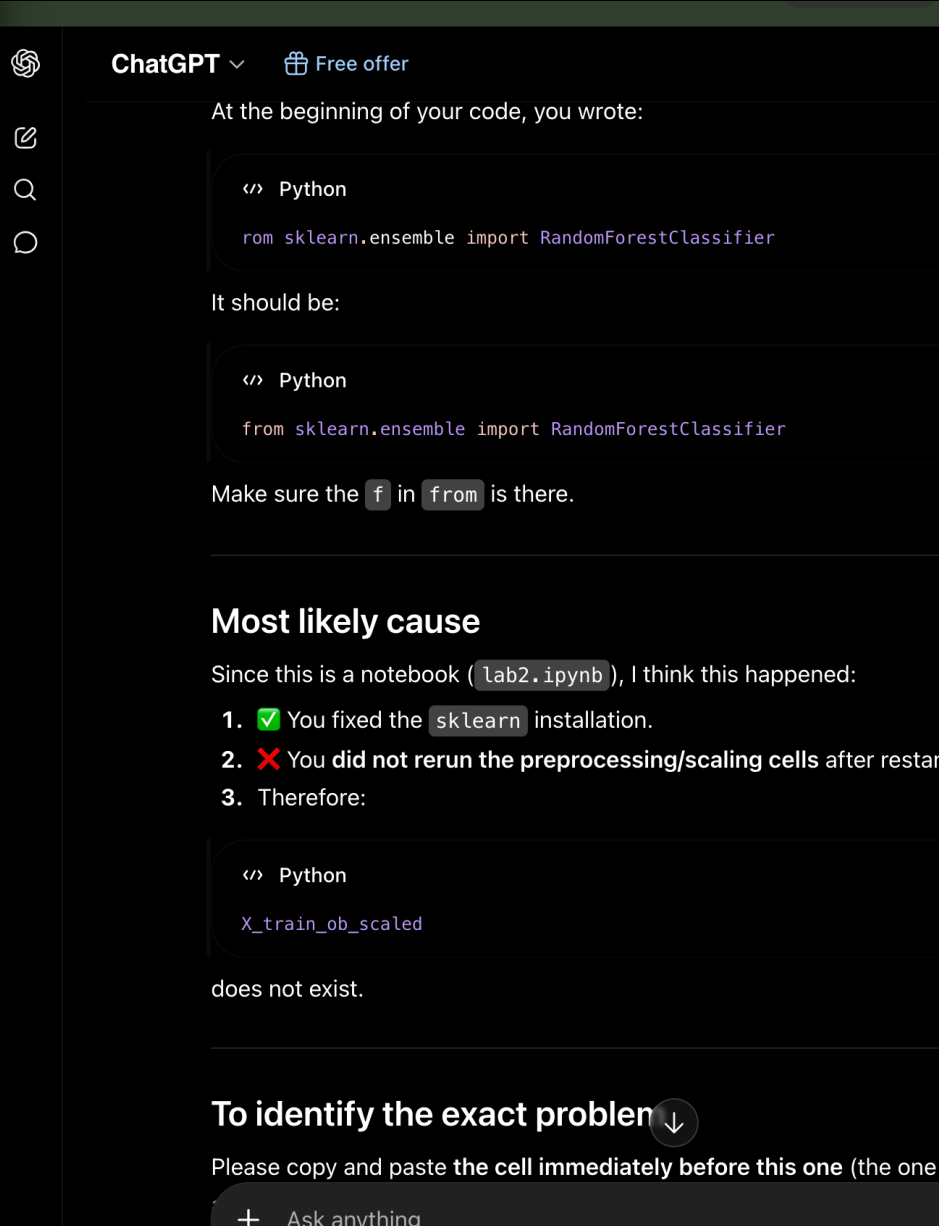

Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
chatGpt	Mainly for debugging	please check what is missing and causing this error	-	Ran all assertions, traced each algorithm against the pseudocode by hand, tested on the sample map and both custom maps, checked output tables

3. Attachment of AI Output Evidence

Where required, attach evidence of AI use. Tick all that apply. Add more rows where necessary.

Evidence Type	Attached? (Yes, No, N/A)	File Name
---------------	--------------------------	-----------

AI-generate d draft		
Prompt history	yes	 ChatGPT  <pre>from sklearn.ensemble import RandomForestClassifier from sklearn.metrics import (accuracy_score, f1_score, classification_report, ConfusionMatrixDisplay) clf = RandomForestClassifier(n_estimators=100, max_depth=10, random_state=RANDOM_STATE)</pre> please check for me this error here in this code This is a different error from the <code>sklearn</code> issue. The good news is that <code>scikit-learn</code> is now installed, so let's focus on this new error. The error <pre>NameError: name 'X_train_ob_scaled' is not defined</pre> This means: <pre>Python does not know what X_train_ob_scaled is because it has never been created.</pre> Think of it like this: - You tell Python:<pre>"Use my blue notebook."</pre> - Python replies:<pre>"What blue notebook? You never gave me one."</pre> Step 1: Check if you ran the previous cell Before running this cell, you should have a cell similar to this:

Screenshot of AI interaction	yes	 ChatGPT Free offer At the beginning of your code, you wrote: <pre><> Python rom sklearn.ensemble import RandomForestClassifier</pre> It should be: <pre><> Python from sklearn.ensemble import RandomForestClassifier</pre> Make sure the <code>f</code> in <code>from</code> is there. Most likely cause Since this is a notebook (<code>lab2.ipynb</code>), I think this happened: 1. You fixed the <code>sklearn</code> installation. 2. You did not rerun the preprocessing/scaling cells after restarting the notebook. 3. Therefore: <pre><> Python X_train_ob_scaled</pre> does not exist. To identify the exact problem Please copy and paste the cell immediately before this one (the one Ask anything
-------------------------------------	------------	---

Exported AI conversation	yes	 ChatGPT   Free offer  I checked your notebook carefully, and the code in the Random Forest is correct. The problem is not Cell 28. The problem comes from Cell 25. What I found Your notebook has: Cell 25 <pre><> Python # 60% train / 20% validation / 20% test with stratification X_train_ob, X_temp_ob, y_train_ob, y_temp_ob = train_test_split(X_obesity, y_obesity, test_size=0.40, random_state=RANDOM_STATE, stratify=y_obesity) X_val_ob, X_test_ob, y_val_ob, y_test_ob = train_test_split(X_temp_ob, y_temp_ob, test_size=0.50, random_state=RANDOM_STATE, stratify=y_temp_ob) scaler_ob = StandardScaler() X_train_ob_scaled = scaler_ob.fit_transform(X_train_ob) X_val_ob_scaled = scaler_ob.transform(X_val_ob) X_test_ob_scaled = scaler_ob.transform(X_test_ob)</pre> Then Cell 28 correctly uses: <pre><> Python </pre><pre>clf.fit(X_train_ob_scaled, y_train_ob)</pre>  Ask anything
AI-generated code snippet		
Revised version showing student input	yes	

4. Student Declaration

I declare that:

Declaration Statement	Response (Yes/No)
The submitted work is my own work.	yes
Any use of AI tools has been clearly declared in this form.	yes
The prompts, instructions, and AI-generated outputs have been disclosed where applicable.	yes
I reviewed, tested, edited, and improved any AI-generated content before submission.	yes
My AI usage does not exceed 25% of the entire work.	yes
I understand that undeclared or excessive AI use may be treated as academic misconduct.	yes
